I'm a software engineer who specializes in developing front-end software development. Through several projects that I've been involved in, I'm quite familiar with some of the front-end development tools and basics which includes ReactJS, Material UI, Redux, and Sass.

Technologies and Languages

- Languages: HTML, CSS, JavaScript, Python
- Technologies: Git, ReactJS, NextJS, NodeJS, ExpressJS, Redux, Material UI, Sass, Tailwind CSS, MySQL.

Projects

Movie21 - GitHub

- Developed front-end user experience using **ReactJS, Redux, Material UI, TMDB, and Alan AI.**
- Allowed user to have awesome experience by having the features of saving the films to watch lists and their favourite movies.
- The App was built with **React** while managing State using **Redux Toolkit.**
- Created Mobile Responsive User Interface with **Material UI** library that allowed the application to adjust the UI for every size.
- Used **Alan AI** to enhance the user experience, which has many voice functionalities.

Ecommerce - GitHub

- Developed front-end user experience using **ReactJS, NextJS, Sanity, and Stripe.**
- Advanced State Management by using **React Context API**.
- Implemented **File-based Routing** and **Data Fetching**, such as Server-side Rendering and Static Generation by using **NextJs**.
- Used **Sanity** to handle the File Storage, Content, and Databases.
- Integrated **Stripe** that allowed user to make payments. It includes product pricing, shipping rates, and taxing.

Gold Gym - GitHub

- Developed front-end user experience using **ReactJS, Material UI, and Rapid API.**
- Used React advanced practices such as **Folder & File Structure** and **Hooks**.
- Created Responsive User Interface by using **Material UI.**
- Fetched data from **Rapid API's** endpoint.

Admin Dashboard - GitHub

- Developed front-end user experience using **ReactJS, Tailwind CSS, and Syncfusion.**
- Advanced React practices such as **Folder & File Structure** and **Hooks & Refs.**
- Built app with advanced state management by using **React Context API.**
- Created complex component and mobile responsive such as charts, editor, calendar and many more with **Syncfusion**.

Education and Certifications

- **AS Computer Science,** Columbia College, Canada   **2020–2022**

- **Scrum Fundamentals Certified (SFC)** 2022
